

IntraSCAN - Email Defense & Message Continuity Service

Email Defense

Email is the most heavily utilized business communication medium in the world today and has a major impact on business processes. *However, Internet Email brings a host of new threats and issues to network and business security.*

IntraSCAN Email Defense

- Virus and Worm Scanning
- Fraud Protection
- Email Attack Protection
- Quarantine Management
- 24x7 Monitoring/ Protection
- Advanced Spam Blocking

Industry surveys reveal that Internet Email is accountable for the delivery and increasing rapid propagation of all virus infections, which have cost business organizations billions of dollars.

Spam now accounts for more than 85% of all email traffic

Disaster Recovery with Message Continuity Services

Where your business email network is concerned, losing connectivity shouldn't leave you out of touch, out of options and out of luck.

Whether your email is down due to a natural disaster, a power outage or even regular maintenance, your business needs to keep this valuable communications lifeline up and running.

CAN YOU PICTURE THE IMPACT ON YOUR B2B COMMUNICATIONS WHEN YOUR EMAIL IS OFFLINE!

You're never disconnected with IntraSCAN-MX Disaster Recover Services which offer email access, managements and us and protection against information loss whenever your email Server is out of commission. This fully-managed suit of services provides the insurance you need to maintain "business as usual"

STRENGTHEN YOUR BUSINESS CONTINUITY PLAN

- Protect business from loss of vital information
- Reduce employee down-time
- Enable continuous email communications during outages
- Remain compliant with regulatory and workplace requirements
- Keep email network free of threats via inbound and outbound filtering.

EASY AND EFFECTIVE EMAIL ACCESS, USE, MANAGEMENT AND RETENTION

Organizations that rely on email to conduct day-to-day business are at risk whenever their email network is down. Our IntraSCAN Disaster Recovery and Message Continuity service eliminates these risks and helps to protect business reputation, operations and productivity.

- Automatic service engagement when outage is detected
- access to email received during an outage via secure Web interface
- Full email functionality, including Read, Compose, Reply, Forward and Delete
- Up to 60 days of unlimited rolling storage
- Intelligent post-outage email activity synchronization
- Outage notifications and system updates
- Inbound and outbound message filtering by the IntraSCAN Email Defense Service

CONVENIENT, AFFORDABLE DISASTER PROTECTION

IntraSCAN Disaster Recovery is a convenient managed service that is less costly and cumbersome than tape or disk backup solutions. It offers easy activation, administration and use, and is compatible with all common email systems.
